

Special Issue

Molecular Basis and Therapies in Neurological Disorders

Message from the Guest Editor

The Special Issue covers the molecular mechanisms of various neurological diseases, including but not limited to Alzheimer's disease, Parkinson's disease, stroke, etc. In-depth research on the pathogenesis and molecular pathways of these diseases will provide the basis for the development of new treatments. This Special Issue focuses on the latest treatments for neurological diseases, including drug therapy, gene therapy, stem cell therapy, and more. This Special Issue aims to provide the scientific community with an in-depth understanding of the latest research advances and treatment innovations in neurological diseases.

Keywords: neurological diseases; nerve damage; Alzheimer's disease; Parkinson's disease; stroke; pathogenesis; nerve regeneration; drug treatment; nanomedicine delivery; gene therapy; stem cell therapy; therapeutic targets; molecular markers; gene editing technology.

Guest Editor

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
