

Special Issue

Depression: Molecular Pathology and Modern Therapy

Message from the Guest Editor

You are cordially invited to contribute to a Special Issue of the International Journal of Molecular Sciences entitled “Depression: Molecular Pathology and Modern Therapy”. In this issue, we will provide the scientific public with the latest advances in our understanding of the molecular underpinnings of clinical depression and discuss emerging or potential therapies which have great promise for patients with depression. Please join us in sharing our knowledge in this field so that others may benefit from our insights and be encouraged by the prospect of a hopeful future for psychiatric patients struggling with depression. The topic focused on (but not limited to) the following areas:

- depression
- neuropathology
- microbiome
- inflammation
- targeted interventions

Authors intending to submit a publishable work should confirm their participation by November 1, 2022. We look forward to hearing from you. This Special Issue is supervised by and assisted by our Topical Advisory Panel Member Dr. Michael Kirby.

Guest Editor

Prof. Dr. Albert Pinhasov

Department of Molecular Biology, Adelson School of Medicine, Ariel University, Ariel 4070000, Israel

Deadline for manuscript submissions

closed (20 January 2025)

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
