

## Special Issue

# Fibrous Proteins: Latest Developments in Molecular Study—Summary Status Inquiry

### Message from the Guest Editor

In this edition, we seek to explore recent advances in the molecular understanding of fibrous proteins, highlighting their translational applications in the healthcare field. Research on the pathways of different diseases and proposed treatments should be discussed, emphasizing the relevance of investigating inflammatory markers and biomolecular and immunological expression in health and disease conditions, focusing on the study of etiopathogenies. These findings are crucial for the development of precise diagnostics and personalized treatments in the near future. We invite articles that share advances in the molecular study of fibrous proteins and their implications in clinical practice. Our objective is to foster collaborations that translate laboratory discoveries into innovative clinical solutions, improving treatment outcomes and developing therapeutic strategies tailored to the individual needs of patients.

### Guest Editor

Prof. Dr. Priscila Casado

Clinical Center of Research in Implant Dentistry, School of Dentistry, Fluminense Federal University (UFF), Niteroi 24020-140, RJ, Brazil

### Deadline for manuscript submissions

31 January 2026

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
