

Special Issue

Synthesis and Applications of Photoactive Molecules and Photovoltaic Materials

Message from the Guest Editors

This Special Issue, "Synthesis and Applications of Photoactive Molecules and Photovoltaic Materials", presents a wide-ranging exploration of innovative research in the fields of photoactive materials and photovoltaics. This collection of articles highlights advances in designing and synthesizing novel photoactive molecules. Moreover, this Special Issue delves into the versatile applications of photoactive molecules in photocatalysis, energy conversion, and environmental remediation. Advanced characterization techniques are discussed as essential tools for material optimization. From energy harvesting to optical devices and sensors, this Special Issue reveals the myriad applications of these materials in emerging technologies. In summary, it offers a comprehensive snapshot of the latest developments in photoactive materials, with implications for renewable energy and advanced technologies. The synthesis, property characterization and application of materials should focus on biological, materials, or molecular research.

Dr. Carlos J. P. Monteiro

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
