

## Special Issue

# Metabolic Dysfunction-Associated Steatotic Liver Disease: From Basic Science to Therapy

### Message from the Guest Editor

Metabolic dysfunction-associated steatotic liver disease (MASLD) has become an important healthcare issue. To reduce the potential associated complications, including liver cirrhosis and hepatocellular carcinoma, a rapid response to this issue is of utmost importance. In order to achieve such a goal, significant research efforts in the field of liver studies are necessary. With this in mind, we hereby invite you to contribute novel papers on the different mechanisms involved in the development of liver steatosis and its progression toward inflammation and carcinogenesis. A great addition to this Special Issue would be manuscripts on therapeutic approaches toward MASLD, both in vitro and in vivo. Finally, we also encourage the submission of papers in clinical settings showing the potential benefits of currently approved drugs that might find usage in MASLD treatment.

### Guest Editor

Dr. Łukasz Bułdak

Department of Internal Medicine and Clinical Pharmacology, Faculty of Medical Sciences in Katowice, Medical University of Silesia, Medyków 18, 40-752 Katowice, Poland

### Deadline for manuscript submissions

20 October 2025

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
