

Special Issue

25th Anniversary of *IJMS*: Updates and Advances in Molecular Nanoscience

Message from the Guest Editors

The collection of papers presented in this 25th anniversary Special Issue of the International Journal of Molecular Sciences features some of the most interesting developments in the field of Molecular Nanoscience. Over the last few decades, significant progress has been made in functional nanomaterials and the biology or life science application of nanomaterials. It is meaningful to investigate how the functional structure of materials influence biological performance in vitro and in vivo and how clinical requirements drive the design of new nanomaterials. We cordially invite scientists to contribute to this Special Issue, which aims to foster cutting-edge advancements in Molecular Nanoscience. As part of this Special Issue, we welcome submissions from researchers in the form of original research papers, communications, and review articles.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
