

Special Issue

Drug Discovery Based on Natural Products

Message from the Guest Editor

The journal aims to serve as a comprehensive platform for the dissemination of cutting-edge research and advancements in the field of Drug Discovery Based on Natural Products. Focused on bridging the gap between traditional medicine and modern pharmacology, the journal welcomes contributions that explore the vast reservoirs of bioactive compounds found in nature. Key Themes and Topics:

Identification and Characterization of Bioactive Compounds

Pharmacological Activities and Mechanisms

Synergies with Modern Drug Development

Emerging Technologies in Natural Product Research

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
