

Special Issue

Molecular Oncogenetics: Insights into Cancer Development, Drug Resistance, and Personalized Treatments

Message from the Guest Editors

We are launching a Special Issue titled “Molecular Oncogenetics: Insights into Cancer Development, Drug Resistance, and Personalized Treatments.” We invite submissions that delve into the molecular alterations and oncogenetic mechanisms influencing cancer cell behavior and patient outcomes. Studies that leverage genomic and transcriptomic data to unravel the genetic landscape of cancer and identify biomarkers for early detection and prognosis are particularly welcome. Additionally, we seek research that investigates the molecular basis of drug resistance, aiming to uncover novel therapeutic targets and strategies to overcome resistance. We encourage contributions that demonstrate the application of molecular oncogenetics in developing precision medicine approaches, including the design of personalized treatment regimens based on genetic and molecular profiling. This Special Issue is supervised by and , assisted by Assistant Dr. Graziana Spoto (Humanitas Hospital of Catania; University of Catania, Italy).

Guest Editors

Prof. Dr. Daniela Calina

Department of Clinical Pharmacy, University of Medicine and Pharmacy of Craiova, 200349 Craiova, Romania

Dr. Luca Falzone

Department of Biomedical and Biotechnological Sciences, University of Catania, Catania, Italy

Deadline for manuscript submissions

closed (31 May 2025)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
