New Insights into Glioblastoma: Cellular and Molecular (2nd Edition)

Message from the Guest Editor

In recent years, a multitude of novel therapies have shown promising signs of efficacy in glioblastoma patients. Precision medicine such as the combination of dabrafenib and trametinib in BRAF-V600E-mutated gliomas, or other tyrosine kinase inhibitors such as regorafenib or NTRK inhibitors, may be used in certain patients. However, in the longer term, an enhanced understanding of the underlying molecular characteristics and genetic landscape of glioblastoma is required to identify novel therapies such as targeted therapies and combination regimens.

This Special Issue will cover all molecular aspects of glioblastoma, including original research on current and experimental treatment options with molecular research and translational work on this cancer's molecular characteristics. Full reviews and novel communications on these topics are also welcome.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
