

Special Issue

Aryl Hydrocarbon Receptor in Biology and Toxicology

Message from the Guest Editor

In this Special Issue of *IJMS*, we want to offer a platform for high-quality publications on various aspects of AHR-research. Bringing together different aspects in one issue, hopefully, will trigger synergy and be of interest for non-AHR researchers as well. Topics include, but are not limited to:

- AHR in Immunology
- AHR in Cancer Research
- Biochemistry of AHR and AHR-signaling
- AHR-involvement in diseases
- AHR and metabolism
- Epidemiology of AHR-ligand exposure
- AHR-ligands in therapy and prevention
- Adverse outcome pathways and AHR

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
