AMP-Activated Protein Kinase Signalling

Message from the Guest Editors

Starting from a kinase of interest, AMPK has gone far beyond an average biomolecule. Being expressed in all mammalian cell types and probably having a counterpart in every eukaryotic cell, AMPK has attracted interest in virtually all areas of biological research. Structural and biophysical insights have greatly contributed to a molecular understanding of this kinase. From the good old protein biochemistry to modern approaches, such as systems biology and advanced microscopy, all disciplines provided with important information. Thus, multiple links to cellular events and subcellular localizations have been established. Moreover, the involvement of AMPK in human health and disease has been evidenced. AMPK accordingly has moved from an interesting enzyme to a pharmacological target. However, despite our extensive current knowledge about AMPK, the growing community is more busy than ever. Authors are invited to submit manuscripts in all areas of recent and current AMPK research with an emphasis on work providing with molecular insight, including but not limited to novel physiological and pathological functions, or regulatory mechanisms.

Guest Editors

Dr. Dietbert Neumann

Department of Pathology, CARIM School for Cardiovascular Diseases, Faculty of Health, Medicine and Life Sciences, Maastricht University, 6200 MD Maastricht, The Netherlands

Dr. Benoit Viollet

Institut Cochin INSERM U1016, Department of Endocrinology, Metabolism and Diabetes (EMD), 24 rue du faubourg Saint-Jacques, 75014 Paris, France

Deadline for manuscript submissions

closed (30 September 2018)

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
