

## Special Issue

# Cancer Biomarkers and Metabolic Vulnerabilities

### Message from the Guest Editor

In the precision oncology era, novel and promising biomarkers and potential therapeutic targets are rapidly emerging thanks to unprecedented technological advances and are being sustained through the improvement of existing and new liquid biopsy approaches. A deeper knowledge of cancer cell behaviors and metabolic assets could lead to the identification of key and often undiscovered molecular players that are expected to offer tremendous benefits in clinical care. We are pleased to invite you to contribute to this Special Issue, "Cancer Biomarkers and Metabolic Vulnerabilities", which will be focused on the molecular and biochemical circuits exploited by cancer cells, investigating the key molecules that could be exploited as diagnostic, prognostic, stratification, and progression/response biomarkers or as targets of therapeutic relevance. Original research articles and reviews, including methodological and preclinical papers, are welcome. We look forward to receiving your contributions.

### Guest Editor

Dr. Francesca Bersani

Department of Oncology, University of Torino, S. Luigi Gonzaga Hospital, Regione Gonzole 10, 10043 Orbassano, Italy

### Deadline for manuscript submissions

20 October 2025

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
