Selected Papers from the 8th Asia-Pacific NMR Symposium (APNMR): Recent Advances in NMR Spectroscopy

Message from the Guest Editors

APNMR2019 was held at Nanyang Technological University Singapore from 3 to 6 July 2019 to showcase emerging developments in solution, solid-state NMR, NMR imaging, metabolomics, computation, method developments, and other aspiring topics on NMR research in the Asia-Pacific region. We are pleased to announce that the post-symposium proceedings of APNMR2019 will be published as a Special Issue of the *International Journal of Molecular Sciences* in March 2020. We are soliciting original research papers in the NMR research areas as stated below (but not limited to this list):

- Biomolecular structure and function;
- Biomolecular dynamics;
- Computation in NMR;
- Drug discovery'
- NMR metabolomics'
- NMR methods;
- NMR in solids;
- Natural products;
- Quantitative MRS and MRI.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
