Special Issue Adipose Stem Cells

Message from the Guest Editors

Adipose tissue is a complex organ and in this last years it has received great attention thanks to its high stem cell content: Adipose Stem Cells (ASC). Ideally, a stem cell for regenerative medicinal applications should meet the following set of criteria: (i) it should be found in abundant quantities (millions to billions of cells); (ii) it can be collected and harvested by a minimally invasive procedure; (iii) it can be differentiated along multiple cell lineage pathways in a reproducible manner; (iv) it can be safely and effectively transplanted to either an autologous or allogeneic host. The aim of the present special issue is 1) characterisation of physiology of ASC

- 2) characterisation of secretoma ativity of ASC
- 3) defining on of transcriptional and nontranscriptional events related to their commitment
- 4) application of ASC as tool to test novel

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
