Molecular Mechanisms of Schizophrenia and Novel Treatment Targets

Message from the Guest Editor

Despite decades of research and impressive advancements, our contemporary understanding of the biological mechanisms underlying schizophrenia phenomenology and treatment response remains incomplete. Novel approaches to interrogating and targeting the molecular substrates of schizophrenia, ranging from the subcellular to anatomical order, require rigorous investigation aimed at characterizing such mechanisms and the development of treatments beyond what is currently available for individuals with schizophrenia. In this Special Issue, we aim to present a multidisciplinary collection of the latest advances in the molecular basis of schizophrenia and novel treatment targets. This Special Issue will cover molecular pharmacology, cellular signaling, immunology, metabolism, and genomics.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
