Acute Lung Injury – New Insights into the Mechanisms and Emerging Therapies

Message from the Guest Editor

This Special Issue of the *International Journal of Molecular Sciences* will focus on recent developments in the area of Acute Lung Injury (ALI) pathogenesis and treatment, including new insights into the mechanisms and emerging therapies for ALI and ARDS. It will cover a selection of recent research topics and current review articles in the field of ALI and ARDS. Experimental papers, up-to-date review articles, and commentaries are all welcome.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
