## New Insights into Anticancer Strategies

### Message from the Guest Editor

This Special Issue aims to advance our understanding of novel anticancer strategies so as to improve early detection and prevention, overcome resistance, and increase patient survival rates. Original research articles and comprehensive reviews are welcome for submission to this Special Issue. Through our efforts, we hope that the impact of developing novel anticancer strategies will extend beyond the basic research paradigm and contribute to the broader goals of improved public health, medical innovation, and healthcare sustainability.

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
