

Special Issue

Antitumor/Anti-inflammatory Activities of Natural Compounds from Plants 3.0

Message from the Guest Editor

This Special Issue of *IJMS* will focus on the antitumor/anti-inflammatory activities of functional molecular substances derived from plants on all types of neoplastic disease. Topics of particular interest include descriptive analyses of their activities, molecular investigations on the mechanisms of action, evaluations of their efficacy compared to toxicity, and, finally, drug delivery studies. Importantly, the exact active ingredient of natural origin extract must be reported in the submitted research manuscript, since papers describing the effects of mixed extraction from natural origin, and substances without clear ingredients, such as complex prescription, crude extract, and "herbal mixture", do not fall within the scope of *IJMS*.

Guest Editor

Dr. Paola Poma

Department of Biological, Chemical and Pharmaceutical Science and Technology (STEBICEF), University of Palermo, 90128 Palermo, Italy.

Deadline for manuscript submissions

closed (31 August 2023)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
