

Special Issue

Autism Spectrum Disorder: Genetics, Genomics and Model Organism

Message from the Guest Editor

In this special issue, we will discuss recent advances in the ASD genetics and genomics including non coding RNA along-with how zebrafish and other model organisms have and can contribute towards the better understanding of the neurobiological consequences of the ASD-associated disrupting genetic factors. Third generation sequencing studies on ASD will be of great interest. Studies related to novel discoveries as well as functional studies on known ASD related genetic factors are welcome. Biomedical functional analysis downstream to clinical studies will also be considered.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
