

Special Issue

Autophagy in Cell Survival and Death

Message from the Guest Editor

This Special Issue aims to cover various facets of the mechanism and regulation of autophagy in cell survival and death. It also includes the role of autophagy in many cellular processes and disease manifestations, such as responses to stressors, inflammatory responses, cancer progression, adipogenesis and neurodegeneration. In addition, systematic and comprehensive autophagy analyses using various publicly accessible datasets (RNA-seq, ChIP-seq, or others) in cellular processes or disease manifestations will be acceptable contributions. We welcome authors to submit original research papers or up-to-date review articles to this thematic issue. This Special Issue will be comprehensive in relation to the general mechanisms of autophagy, drug-targeted regulation of autophagy, and autophagy regulators using new therapeutic strategies.

Guest Editor

Dr. Deok Ryong Kim

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
