

## Special Issue

# Inflammatory Bowel Disease: Molecular Insights—2nd Edition

### Message from the Guest Editor

Inflammatory bowel disease is an elusive chronic gastrointestinal inflammatory disease that, in many cases, diminishes the quality of life of patients. We welcome original research manuscripts that help to unravel exciting and novel findings that have the potential to shed light on the pathogenesis of IBD. The scope of this Special Issue includes research relating to human multiomic analysis, genomic sequencing, studies with components of basic science research or mechanistic data, and animal studies with relevance to Crohn's disease and/or ulcerative colitis.

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
