

Special Issue

Inflammatory Bowel Disease: Molecular Insights—2nd Edition

Message from the Guest Editor

Inflammatory bowel disease is an elusive chronic gastrointestinal inflammatory disease that, in many cases, diminishes the quality of life of patients. We welcome original research manuscripts that help to unravel exciting and novel findings that have the potential to shed light on the pathogenesis of IBD. The scope of this Special Issue includes research relating to human multiomic analysis, genomic sequencing, studies with components of basic science research or mechanistic data, and animal studies with relevance to Crohn's disease and/or ulcerative colitis.

Guest Editor

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles

Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
