

Special Issue

Molecular Research in Cancer Radiotherapy

Message from the Guest Editor

The molecular and technological aspects of the field of radiation therapy have grown rapidly. Several factors, including the patient, radiation biological, and radiation physics components, can influence the outcomes of radiotherapy for cancer. Recent advances in novel pharmaceuticals, molecular technologies, and outcome prediction models have increased the significance of molecular research in cancer. This special issue emphasizes the most recent findings of molecular research in radiotherapy for cancer, with a focus on radiotherapy-related molecular alterations, biomarkers, and mechanisms. We invite submissions of research articles and reviews addressing contemporary molecular research in cancer radiotherapy.

Guest Editor

Dr. Dong Soo Lee

Associate Professor, Department of Radiation Oncology, College of Medicine, The Catholic University of Korea, Seoul, Republic of Korea

Deadline for manuscript submissions

closed (15 May 2024)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
