

Special Issue

Molecular Pathology and Diagnosis of Endometriosis

Message from the Guest Editor

We are pleased to announce this Special Issue of the *International Journal of Medical Sciences*, entitled "Molecular Pathology and Diagnosis of Endometriosis". Endometriosis affects up to ten percent of women of reproductive age. The therapeutic strategies include the surgical resection of ectopic lesions, pain management, and different hormonal treatments. However our therapeutic armamentarium has not been dramatically improved over the last decades. Endometriosis remains a complex and challenging condition with significant implications for women's health. This Special Issue aims to bridge the gap between fundamental research and clinical application, fostering a comprehensive understanding of endometriosis from molecular mechanisms to patient care. Topics of interest include, but are not limited to, pathophysiology and molecular mechanisms of endometriosis, precision medicine, innovative diagnostics, advances in medical treatments and translational research. Led by and assisted by Topical Advisory Panel Member Dr. Alexandra Perricos-Hess, we encourage submissions that advance the knowledge and treatment of endometriosis.

Guest Editor

Prof. Dr. René Wenzl

Department of Obstetrics and Gynecology, Medical University of Vienna, 1090 Vienna, Austria

Deadline for manuscript submissions

closed (28 December 2024)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
