

## Special Issue

# Microbiomes in Human Health and Disease

### Message from the Guest Editor

Over recent decades microbiome research has undergone rapid growth, especially due to the development and availability of cost-effective next-generation sequencing techniques. Fascinating insights into the influence of microbial communities on human health have already been made. Nevertheless, our understanding of the various and complex interactions of microbes and humans is still limited. Therefore, it is the dedicated aim of this Special Issue to expand our knowledge on this fascinating field of research and to collect the latest studies on human microbiomes. Research articles, short communications, and reviews dealing with the question of how these microbiomes impact development, health, and disease, as well as studies on the development and application of new tools and approaches to study microbiomes in human health and disease, are welcome.

### Guest Editor

Prof. Dr. Andreas Burkovski

Microbiology Division, Friedrich-Alexander-Universität Erlangen-Nürnberg, 91058 Erlangen, Germany

### Deadline for manuscript submissions

28 February 2026

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
