

Special Issue

Inflammatory Diseases: From a Molecular Perspective

Message from the Guest Editor

The goal of this special issue, titled 'Inflammatory Diseases: From a Molecular Perspective', is to spotlight the ongoing research efforts aimed at gaining a deeper understanding of the mechanisms behind these diseases. This research seeks to identify potential therapeutic targets, explore the role of new molecular treatment options, and develop molecular diagnostic strategies that can contribute to the advancement of personalized medicine. This special issue aims to bridge the gap between basic scientific investigations and translational research. The ultimate aim is to enhance our comprehension of the molecular mechanisms involved in inflammatory diseases.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
