

Special Issue

Bioactivity of Natural and Synthetic Molecules in Dentistry

Message from the Guest Editor

Many applications of bioactive materials are necessary in across fields of dentistry. Diverse molecules and bioactive additives are used to enhance the biological reactions of dental products. Natural and synthetic molecules are used in the oral cavity to enhance the healing ability of dental materials. This Special Issue, entitled “*Bioactivity of Natural and Synthetic Molecules in Dentistry*”, addresses the effects of the bioactive molecules that are used in dental materials on the biological, physicochemical, and mechanical properties of those materials, as well as the role of this bioactivity on their healing ability. Original articles, review papers, and clinical cases describing in vitro and in vivo research in conservative, endodontics, prosthodontics, surgery, and pediatric dentistry are all welcome.

Guest Editor

Dr. Naji Kharouf

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
