

Special Issue

Synthesis and Applications of Biopolymer Composites

Message from the Guest Editors

This Special Issue is planned to bring together a number of original papers and reviews covering (but not restricted to) the following topics:

- Novel fabrication methods
- Structure-property relationships
- Properties of natural polymers, biopolymers, their blends and composites
- Applications of reinforced polymeric biomaterials
- Biopolymer composites in electronics
- Biopolymer composites in water purification
- Antibacterial activity of biopolymer-based composites
- Biomedical applications of biopolymer-based composites
- Biopolymer composites in packaging and food industry
- Future perspectives for biopolymeric nanomaterials

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
