

## Special Issue

# Molecular Signaling Pathways in Brain Pathology 2.0

### Message from the Guest Editor

I am serving as guest editor for the Special Issue “Molecular Signaling Pathways in Brain Pathology” in the *International Journal of Molecular Sciences*. In the past, diseases such as glioblastoma or multiple sclerosis have been associated with abnormal signaling including changes in FGF/FGFR pathways; patients with glioblastoma were or are being treated with FGFR tyrosine kinase inhibitors. I would be pleased if you would be willing to contribute to this special issue by submitting an original research article or comprehensive review related to the above-mentioned topic. For detailed information on this special issue, please see this link: ... The submission deadline will be 31 January 2023. Manuscripts may be submitted any time before the deadline and they will be published online.

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
