## Cancer Cachexia and Related Metabolic Dysfunction

## Message from the Guest Editors

Cachexia is characterized by several metabolic dysfunctions, mainly massive skeletal muscle and fat storage wasting, coupled with a wide range of dysfunctions ranging from increased insulin resistance to general inflammation, increased energy expenditure and heat generation *via* defective mitochondrial metabolism and fat tissue browning. We invite investigators to contribute with original research articles, as well as meta-analyses and review articles that will stimulate the comprehension of the molecular mechanisms underlying the relevance of metabolic reprogramming in the onset and progression of cancer cachexia.

#### **Guest Editors**

Dr. Paolo E Porporato

Molecular Biotechnology Center Torino, Department of Molecular Biotechnology and Health Sciences, Universita degli Studi di Torino, Torino, Italy

## Dr. Nicoletta Filigheddu

Department of Translational Medicine, University of Piemonte Orientale, Novara, Italy

## Deadline for manuscript submissions

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### **Editor-in-Chief**

#### Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

### **Author Benefits**

## **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
