

## Special Issue

# Cancer Immunotherapy: Recent Advances and Prospects

### Message from the Guest Editors

In the era of emerging cancer immunotherapy, new challenges have arisen due to treatment-induced resistance mechanisms on the tumor side and alterations of innate and adaptive patients' immune systems. Each cancer-specific therapy as well as each immunotherapy results in dynamic tumor immune interaction. With a better understanding of these interactions, not only novel combination therapies but also smart sequencing strategies can be developed. This Special Issue aims to publish research articles, reviews, and perspectives that concentrate on clinical/translational cancer immunotherapy, including in vitro and in vivo studies about novel immunotherapeutic approaches, therapy-induced immunomodulation and immunotherapy biomarkers.

---

### Guest Editors

Prof. Dr. Il-Kang Na

Charité—Universitätsmedizin Berlin, Corporate Member of Freie Universität Berlin, Humboldt-Universität zu Berlin, and Berlin Institute of Health, Campus Benjamin Franklin, Hindenburgdamm 30, 12203 Berlin German Cancer Consortium (DKTK), partner site Berlin and German Cancer Research Center (DKFZ), Heidelberg, Germany Experimental and Clinical Research Center (ECRC), Berlin, Germany Berlin-Brandenburg Center for Regenerative Therapies, Berlin, Germany

Dr. Antonia Busse

Department of Hematology, Oncology and Cancer Immunology, Campus Benjamin Franklin, Charité-Universitätsmedizin Berlin, 10117 Berlin, Germany

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
