

## Special Issue

# Innovation through Tradition: The Current Challenges in Cancer Treatment 2.0

### Message from the Guest Editors

This Special Issue is the continuation of our previous Special Issue "Innovation through Tradition: The Current Challenges in Cancer Treatment". Enthused by the reception of our previous SI, we agreed to continue this Special Issue with a volume II this year. Innovative technological and methodological strategies certainly constitute our topic of interest, but we are also interested in canonical approaches that have a direct impact on the course and outcome of the illness. Identifying new formulations of existing antineoplastic compounds capable of increasing the effectiveness and reducing the toxicity as well as recognizing new therapeutic partners, natural or synthetic molecules useful for improving performances, represent some "traditional" aspects that we intend to embrace. In accordance with the aims and scope of *IJMS*, we kindly encourage the submission of molecular studies in the biology, chemistry, and medicine fields. Moreover, review articles on fascinating topics in cancer therapy will be considered meticulously.

### Guest Editors

Prof. Dr. Silvio Naviglio

Department of Precision Medicine, School of Medicine, University of Campania "L. Vanvitelli", 80138 Naples, Italy

Dr. Luigi Sapio

Department of Precision Medicine, School of Medicine, University of Campania "L. Vanvitelli", 80138 Naples, Italy

### Deadline for manuscript submissions

closed (30 June 2023)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
