Molecular Drivers of Responsiveness to Cancer Immunotherapy

Message from the Guest Editors

Cancer immunotherapeutics such as cancer vaccines and immune checkpoint inhibitors act by activating the immune system against cancer. Despite recent advances and encouraging successes, the pressing problem is the resistance to these treatments in the majority of patients; for example, only

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
