

## Special Issue

# Cellular and Molecular Mechanisms in Glomerulonephritis

### Message from the Guest Editor

This Special Issue, “Cellular and Molecular Mechanisms in Glomerulonephritis”, will collect a selection of recent research topics and current review articles related to the role of “Cellular and Molecular Mechanisms in Primary and Secondary Glomerulonephritis” in order to update the current knowledge in this field. Original papers, up-to-date review articles, and commentaries are all welcome.

---

### Guest Editor

Prof. Dr. Elena Ranieri

Department of Medical and Surgical Sciences, School of Medicine,  
University of Foggia, Viale Luigi Pinto, 1, Foggia, Italy

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
