

## Special Issue

# Chronic Liver Disease: Latest Research in Pathogenesis, Detection and Treatment

### Message from the Guest Editors

Chronic liver diseases (CLDs) are a major challenge for global health. In patients with CLDs, liver cirrhosis and hepatocellular carcinoma (HCC) are the main contributors to morbidity and mortality. Chronic liver injuries are characterized by: 1) reiteration of liver injury and persisting inflammation as a major driving force for progressive fibrogenesis, resulting in increased deposition of extracellular matrix or ECM, eventually leading to cirrhosis and liver failure; 2) cellular levels that predominate the involvement of macrophages and Kupffer cells as well as highly proliferative, profibrogenic, migrating and contractile myofibroblast (MF)-like cells that may originate, following activation, from hepatic stellate cells (HSC/MFs). Several mechanisms can sustain fibrogenesis and its progression to advanced liver fibrosis, cirrhosis, liver failure and the development of HCC. In this Special Issue, I invite you to contribute original and cutting-edge research articles and reviews related to the title Chronic Liver Disease: Latest Research in Pathogenesis, Detection and Treatment.

### Guest Editors

Dr. Cristian Turato

Department of Molecular Medicine, University of Pavia, 27100 Pavia, Italy

Dr. Stefania Cannito

Department of Clinical and Biological Sciences, University of Torino, 10125 Torino, Italy

### Deadline for manuscript submissions

closed (15 March 2023)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle  
Marche, Via Ranieri 65, 60100 Ancona, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
