

## Special Issue

# Pathophysiology in Colonic Diseases

### Message from the Guest Editors

This Special Issue “Pathophysiology in Colonic Diseases” of the *International Journal of Molecular Sciences* (IJMS) will publish contributions on all aspects of molecular pathology. Not only experimental studies but also translational researches are acceptable. As *IJMS* focuses on deep molecular research, papers only containing clinical trials/data are not acceptable. Although we never reject endoscopic studies, studies regarding the endoscopic techniques and/or images alone are not acceptable. This Special Issue invites submissions regarding various colonic diseases such as colorectal cancer, inflammatory bowel diseases, irritable bowel syndrome, or colonic infectious diseases. We encourage the researchers to publish studies that attempt to clarify the pathophysiological mechanism of those diseases. Particularly, microbiome, intestinal mucosal immunity, gut hormone, and pharmacological aspects are topics of interest.

---

### Guest Editors

Dr. Hirokazu Fukui

Department of Gastroenterology, Faculty School of Medicine, Hyogo College of Medicine, Nishinomiya, Japan

Dr. Jiro Watari

President, Kinentou Hospital, Sapporo, Japan

---

### Deadline for manuscript submissions

closed (31 October 2020)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
