

## Special Issue

# Connexin-Based Channels in Inflammatory Processes

### Message from the Guest Editor

Hemichannels and gap junction channels (GJCs) participate in cellular communication, allow the interchange of ions and metabolites between cells, and between cells and the extracellular media. Inflammation is a complex process that encompasses the cellular response to damage caused by a wound or infection by pathogens. Commonly the inflammatory response is accompanied by the release of proinflammatory cytokines, chemokines and free radicals. All of them can modulate the activity of hemichannels as well as GJCs. This Special Issue aims to gather the latest evidence that shows how inflammatory processes affect cellular communication mediated by connexins and how these channels participate in the amplification of tissue inflammation.

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle  
Marche, Via Ranieri 65, 60100 Ancona, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
