

## Special Issue

# Advances in the Genetic Research on Psychiatric Disorders

### Message from the Guest Editor

Authors are invited to submit original research articles, reviews, and case studies that explore various aspects of genetic research in psychiatric disorders. Topics of interest include, but are not limited to, gene-environment interactions, epigenetic modifications, genome-wide association studies (GWASs), next-generation sequencing, and the identification of novel genetic variants. Additionally, studies that investigate the translation of genetic findings into clinical practice, personalized medicine, and therapeutic interventions are highly encouraged. This Special Issue aims to foster a deeper understanding of the genetic architecture of psychiatric disorders and to inspire future research endeavors. By disseminating the latest advancements, we hope to contribute to the development of more effective diagnostic tools and treatments, ultimately improving the lives of individuals affected by these challenging conditions. We look forward to your valuable contributions and to advancing the frontiers of psychiatric genetic research together.

### Guest Editor

Dr. Lawrence Shih-Hsin Wu

Graduate Institute of Biomedical Sciences, China Medical University,  
Taichung 406040, Taiwan

### Deadline for manuscript submissions

30 December 2025

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
