

Special Issue

Viral Infection and Virology Methods

Message from the Guest Editor

Since scientific notions are constantly changing, the research community must contribute to a better understanding of virus-caused infectious diseases, including resistant and acute viral infections, especially those representing public health challenges. In addition, this field is constantly evolving with the discovery of new methodologies and technologies, expanding beyond diagnostics into laboratory research, as well as defining the mechanisms of immune responses or related viral pathogenesis upon infection. This Special Issue will improve our knowledge of old and new viral infections at the molecular level, focusing on innovative methods and techniques to be applied in clinical settings. We welcome in vivo and ex vivo experimental studies, review articles, and clinical studies.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
