

Special Issue

Advanced Research of Skin Inflammation and Related Diseases

Message from the Guest Editors

In this Special Issue for *IJMS*, we will focus on molecular studies in biology and medicine as a promising approach to identify new therapeutic targets, as well as novel biomarkers with diagnostic significance in skin pathologies. In vitro data, human studies, and clinical observations in all fields of basic immune and skin inflammation research are welcome.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
