

Special Issue

Energy, Metabolism and Cell Fate

Message from the Guest Editors

With this Special Issue we intend to attract original papers addressing questions that uncover the role of metabolic pathways/sensors dictating immune cells function and its impact in different diseases. Special attention will be devoted to metabolic intermediates from different metabolic pathways with the ability to influence immune cells, and the use of metabolic inhibitors to treat diseases. Outstanding reviews covering these new aspects of the immunometabolism field also will be considered in this new Special Issue. We hope this Issue contributes to a better understanding of the relationship between immune cells, metabolism, and diseases.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
