

Special Issue

Epilepsy and Comorbidities in Children: Pathogenesis, Diagnosis and Therapies

Message from the Guest Editors

Neurological and psychiatric/neuropsychological comorbidities can aggravate and complicate the child's epileptic disorder themselves. The aim of this Special Issue is to shed light on pathological mechanisms, novel therapeutic approaches and diagnosis in an updated and current way and in particular the issues related to comorbidities such as ADHD disorder, mood disorders (anxiety and depression), psychotic disorders, psychogenic non-epileptic seizures, cognitive functions and learning disorders and the role of school, behavior disorders such as the oppositional-defiant disorder, the conduct disorders, the disruptive behavior and other behavioral problems, the autism spectrum disorders, the parental stress and quality of life, the quality of sleep in the epileptic child, the migraine in the epileptic child, music therapy and epilepsy, ketogenic diet and new hypothesis of basic mechanisms of action.

The individual topics should also consider the neurobiological aspects and the possible molecular links underlying the epileptic disorder and their respective comorbidities, without neglecting the therapeutic implications. Original papers and reviews will be accepted.

Guest Editors

Prof. Dr. Giangennaro Coppola

Child and Adolescent Neuropsychiatry, Medical School, University of Salerno, Salerno, Italy

Dr. Francesca Felicia Operto

Child and Adolescent Neuropsychiatry Unit, Department of Medicine, Surgery and Dentistry, University of Salerno, 84084 Fisciano, SA, Italy

Deadline for manuscript submissions

closed (17 December 2021)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
