

Special Issue

The Role of Exosomes in Health and Disease 2.0

Message from the Guest Editor

Exosomes are the smallest cell-released vesicles with the potential to transfer proteins, lipids, metabolites, small RNAs, messenger RNAs, or DNA between several cells exposed to different microenvironments via extracellular fluid, lymph, and bloodstream. Exosomes have emerged as a new type of therapeutic and diagnostic (theranostic) tool in the noninvasive assessment of tissue response to stress, injury, surgery, drugs, foods or rehabilitation, and in the development of reliable organ-protective intensive therapy. This Special Issue will discuss the recent advances in the field of exosomes as endogenous mediators of physiological and pathological conditions, focusing on the potential use of these nanovesicles as biomarkers or therapeutic agents. All types of articles including original research, review are welcomed.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
