

Special Issue

Extracellular Vesicles in Reproduction—2nd Edition

Message from the Guest Editors

This Issue of *IJMS* is focused on "Extracellular Vesicles in Reproduction". The Issue welcomes papers covering EVs characterization, quantification, disclosure of their load, and elucidation of their biogenesis and roles when modulating reproductive events. The Issue welcomes novel research, certainly of comparative aspects but also of methodological papers, as well as insightful, critical reviews in these areas.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
