

Special Issue

Ion Channels in Eye Development, Health, and Disease

Message from the Guest Editors

The eye is an excellent model for understanding how the structure and function of ion channels correlate during development, health, and disease. This Special Issue aims to provide a comprehensive overview of the roles ion channels play from the perspective of the eye during development, health, disease, and potential therapeutic targets. This Special Issue welcomes original research papers, reviews, mini-reviews, perspectives, and opinion articles that will provide insights into the novel and existing approaches to:

- Explore specific roles of ion channels in development, health, and disease.
- Novel approaches to study the structure and function of ion channels.
- Current understanding of channelopathies and drug development.
- Studies in all animal species and models of retinal diseases are welcome, as are comparative studies across animal models.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
