Translational Medicine of Vascular and Lymphatic Diseases: From the Molecule to the Clinic

Message from the Guest Editors

We present this Special Issue that aims to address vascular pathology from a translational perspective. We want this Special Issue to be a place of synergies of molecular and clinical advances in the field of vascular medicine.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
