

Special Issue

Advances in Cancer Chemoprevention and Therapeutics

Message from the Guest Editor

Despite current advances in surgery and other treatment options, the fatality of some cancers has remained mostly unchanged. Studies have shown that phytochemicals have the capability to prevent carcinogenesis. Therefore, new active compounds responsible for the anti-cancer characteristics of dietary plants, and original active compounds exert novel function on anti-carcinogenesis, are important issues in cancer investigation. We invite the researchers to contribute original and review articles regarding the relationship between phytochemicals and cancers, including the discovery of novel anti-cancer phytochemicals and the novel signalling pathways, and signalling molecules of phytochemicals on cancer treatment. We are pleased to invite you to our Special Issue on "Advances in Cancer Chemoprevention and Therapeutics". We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
