

Special Issue

Role of Non-Coding Regulatory Elements in Human Development and Diseases

Message from the Guest Editor

This Special Issue aims to showcase research focuses on how non-coding regulatory elements contribute to both normal development and disease pathology. We invite original research and reviews on topics including functional genomics, epigenetic regulation, chromatin dynamics, and the impact of non-coding RNA in health and disease, to advance our understanding of these critical components of the genome.

Guest Editor

Dr. Santhilal Subhash

Cold Spring Harbor Laboratory, Cancer Center, New York, NY, USA

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
