Special Issue

Molecular Mechanisms of Inflammatory Skin Diseases

Message from the Guest Editor

Our understanding of the field of inflammatory skin diseases has developed dynamically in recent decades, which has resulted new biological therapies and targeted, small-molecule-type therapies. In spite of these valuable developments, patients experiencing these skin diseases remain uncured but treated: sometimes, these diseases are lifelong, and many unmet needs remain in this field. This Special Issue welcomes scientific investigations regarding the broad field of inflammatory skin diseases, particularly focusing on psoriasis, atopic dermatitis, vitiligo, alopecia, and hidradenitis suppurativa. Molecular research aiming to help to answer open questions related to their pathomechanisms and diagnostic and therapeutic difficulties are all considered as important topics. If you have any interest in our special issue, please feel free to contact me or the editor Vera Cao (vera.cao@mdpi.com).

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
