

Topical Collection

Feature Papers in Molecular Neurobiology

Message from the Collection Editor

The Topical Collection “Feature Papers in Molecular Neurobiology” aims to collect both high-quality original research articles and reviews in the field of molecular neurobiology. This Topical Collection is also open to articles describing novel technologies aimed at identifying disease biomarkers. Editorial Board Members of this *IJMS* Section are highly encouraged to contribute by submitting their reports on relevant advances in their field. Board members are also encouraged to invite colleagues and experts to consider submitting their work to this Topical Collection.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
